

# IntelliFit

An artificial intelligence  
powered pose estimation  
fitness tracker to meet all  
your workout goals.

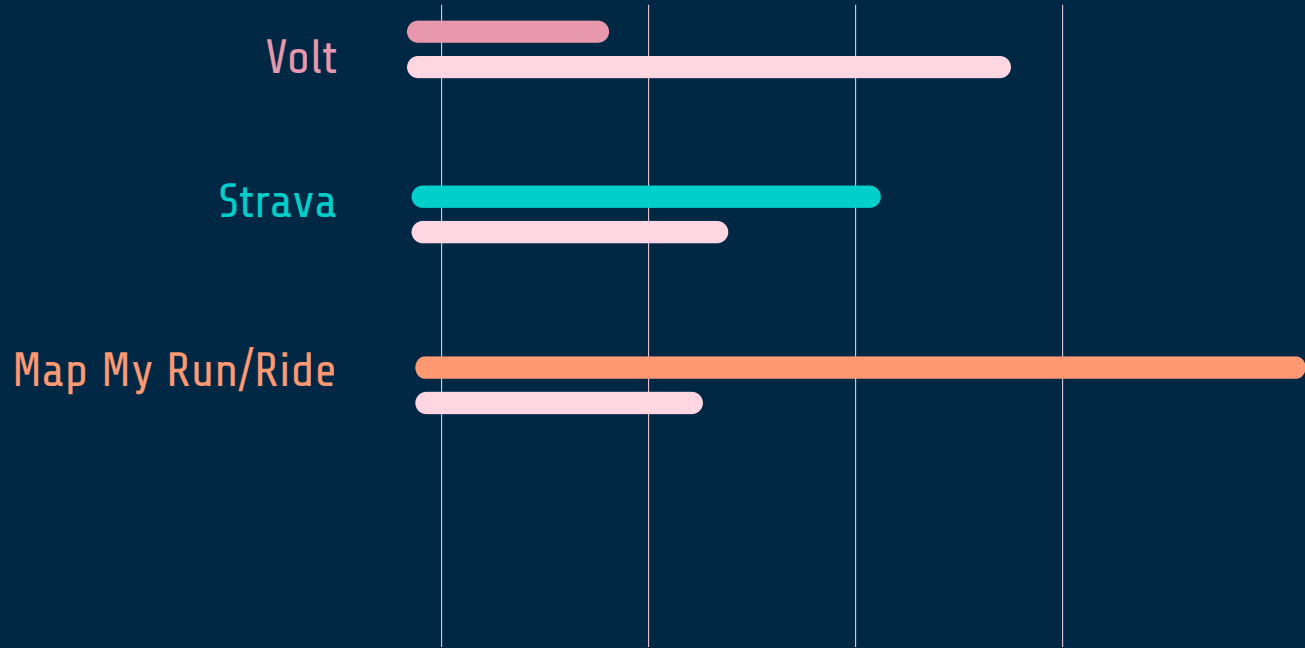

# UNDERSTANDING THE PROBLEM

## The Desire to Stay Fit at Home

Despite many services offering solutions to this problem, they all have their own limitations, while we hope to provide a balanced service.

# MAIN COMPETITORS

# OUR PROGRESS

Use React to create  
a simple interface  
for the user.

Part I

Part II

With the use of the  
python module,  
OpenCV, be able to  
model and assess  
certain workouts

Integrate the python  
backend into the react  
application.

Part III

# UPCOMING GOALS

In the near future, we hope to integrate our two systems into one homogenized product
